Summary

I am a highly motivated and skilled computer science student, specializing in web development, eager to apply my technical expertise and knowledge to contribute value to your team. With a strong foundation in computer science theory and different certificates in web design from bootcamps like FreeCodeCamp, I have gained practical experience in web development, with proficiency in HTML, CSS, and JavaScript. In addition to my web development skills, I hold CCNA certifications in networking and Linux administration, as well as basic knowledge in cybersecurity, software installation, and troubleshooting. I also possess ICT support skills, further enhancing my ability to contribute effectively to various IT-related projects and collaborate with cross-functional teams. I possess excellent communication skills and thrive in both independent and team-oriented environments. My strong attention to detail and passion for delivering quality results ensure that I can make a meaningful contribution to your organization. Furthermore, my highly organized nature enables me to manage multiple tasks effectively, ensuring timely project delivery. I am now seeking a position that will enable me to apply my knowledge, skills, and experience to further develop my technical expertise while contributing to your organization's success.

Work experience

Emali-Sultan Hamud Municipality

Sep 2023- Present

Volunteer ICT Officer

- Led troubleshooting efforts to identify and resolve hardware and software issues, ensuring smooth operation of ICT systems and minimizing downtime.
- Proactively maintained and updated software systems, implementing necessary security patches and performance enhancements to safeguard data and optimize system performance.
- Managed the configuration and maintenance of desktops, printers, and other ICT equipment, ensuring they were up to date and functioning properly.
- Provided prompt and effective technical support to end-users, addressing their queries and concerns in a timely manner and ensuring minimal disruption to their work.

- Collaborated with cross-functional teams to implement technology solutions that enhanced efficiency and productivity, leveraging ICT tools and systems to streamline processes and improve workflow.

Makueni County
